

HOBIE KAYAK BREAM SERIES 10 EVENT SITE LAYOUT

FOR THE NEWLY INITIATED

For those entering their first event, the following diagram should help to make you feel more at home. Hobie Kayak Bream Series events are generally set up in a consistent manner, comprising of the Hobie Event Trailer; a marquee for the Bump Tubs (Where you keep your fish aerated while you await your turn up on stage); a Marquee for the scorers; and the official release area (where your bream will be released to swim away).

In addition there is often a marquee for dealer support where you can ask advice about your kayak as well as grab your snack packs for the day and get your BBQ lunch after returning from your day out on the water.
